dent's Récord. In Deferçe and Foreign Policy

## A WAR DA**nger is 5** en

He Asserts.

By Jack Williams Clea Star & National Peliteral Correspondents

Washington, May it. Missouri, seeking the President a foreign affairs Democratic presidential master of his foreign policy. nomination, said here he must not only supervise today his conception of the State department, him also the presidency does not give aftention to the Defense coincide with that of department, CIA, the Atomic President Eisenhower.

Press clib Symington departed from an academic distussion of the "role of the president" in the smodern age play a part in the conduct and execution of foreign policy. The said. President" to take a couple of veiled jabs at Eisenhower, including one about the spy plane incident.

## Deplores "Sorry State."

There has never been a sime when our powerful regu latory agéncies have been in such a storry state," the sena-

tec said. He took a pot shot at the President's handling of the inpernational situation when he said "for any fair-minded ob-; server who is willing to face ithe international situations knows that we are still jog-; ging along, hoping for something to turn up."

He said the quotation was from a speech by Sir Winston-Churchill in 1948 when! Churchill was discussing the affairs of his fown country.

Increase in Power.

in recent years more and more power has been turned over to the President by Congress, Symington said, to make Mr. Eisenhower the oblique target of his talk

There was a veiled hint that Senator Criticizes the President could come from some action of the chief executive.

"Today the President must be in firm control of the military and its related activities," the said-obviously referring to the spy plane incident. "For The President Must Exercise war and peace are no longer Powers to Prevent Conflict, stately events, War can be

> tarted in an instant, through a mistake, or confusion resulting from faulty organization. "Must Be Master."

"Unother point, Syming--Senator Symington of the stressed the role of the

"If the President is to be Energy Commission and those: In a speech at the National agencies which in this modern
